# OUR VALUES

## Intelligence. Integrity. Innovation.

At IIL, “Intelligence, Integrity and Innovation” is more than just our motto – it is a statement that defines who we are, what we do and how we do it. These three core values inform how we interact with clients and with one another, forming the foundation for how we conduct our business all over the world.

### Intelligence

We believe in the fundamental importance of learning and strive to continually increase our own knowledge. We do this by listening, asking questions and integrating what we learn into our everyday lives. We learn from and respect the cultures in which we work, and we know that every person’s voice is important.

### Integrity

We place a premium value on honesty and integrity. Taking responsibility for our actions and learning from our mistakes drives us to continually improve our performance. We believe in collaboration and know that it is built on trust and mutual respect. We run our business in an ethical, sustainable, and socially responsible way.

### Innovation

We are thinkers and strategists as well as creative problem solvers. We see challenges as opportunities, striving always to do our work as efficiently and effectively as possible. We know that discovery drives innovation and are not satisfied with the status quo. We keep our finger on the pulse of the global marketplace, seeking to anticipate our customers’ needs and exceed their expectations.

## KERZNER PM MATURITY ASSESSMENT™ (KPMMA)

Developed by Dr. Harold Kerzner, one of the world's foremost experts in project management strategies and best practices, the Kerzner Project Management Maturity Assessment™ (KPMMA) measures both Individual and Organizational Maturity. This assessment evaluates your company's performance and processes. It will help you and your company achieve a new level of project management excellence.

KPMMA aligns with project management best practices, covering predictive, hybrid/agile, and agnostic methods. It assesses value and benefits management, resilience, future adaptability, change management, and more. The questions are customizable to fit your internal processes and are presented in a multiple choice, staged format. Participants complete the assessment through an easy-to-use web-based interface.

The assessment provides a detailed breakdown of organizational and individual scores, benchmarks your performance against competitors and the market, and offers instant scoring and reporting. You will receive a thorough analysis with actionable, high-level recommendations.

**Coming soon!** KPMMA v.4 will include agnostic, predictive, agile, and hybrid approaches to project management.

# IIL CONSULTING

A division of International Institute for Learning

We understand the need for organizations to rapidly adapt to market and environmental changes in productive and cost-effective ways. We understand that companies need to be agile and adaptive. When it comes to business improvement, team development, and sustainable change, we bring our experience to the table.

For over 30 years, IIL Consulting has helped clients navigate change, transform processes, adapt with agility, and upskill their teams. We have worked with organizations and companies, both large and small, from all sectors across the globe. We've been on their journeys and have learned much along the way. IIL Consulting will provide a more comprehensive portfolio of services aligned with the main challenges our clients are facing today. Our team of consultants are ready to support you and your organization.

## Services Portfolio

For more information, please contact us at [consulting@iil.com](mailto:consulting@iil.com)

## Agile Transformation

**Agile project management boosts adaptability, efficiency, and team collaboration**

IIL Consulting's Agile Transformation service helps organizations transition to Agile methodologies to enhance flexibility, improve team collaboration, and adapt quickly to market changes.

The approach includes a comprehensive assessment, customized implementation plans, and continuous support to ensure the successful adoption of Agile practices. By embracing Agile, organizations can expect faster project delivery, better product quality, and a more dynamic and innovative work environment, positioning them to thrive in a rapidly changing business landscape.

## Artificial Intelligence and Digital Transformation

**In the future there will be two types of companies—those who embrace AI, and those that no longer exist**

IIL Consulting's AI and Digital Transformation services help organizations leverage AI to improve decision-making, productivity, and customer experiences. Their process includes knowledge alignment, assessing AI maturity level, identifying opportunities, and implementing customized AI solutions.

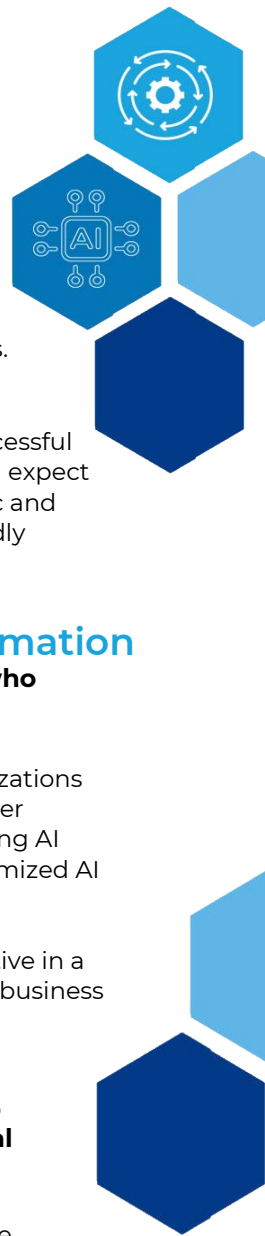

This approach ensures businesses can innovate and stay competitive in a rapidly evolving digital landscape. The focus is on aligning AI with business goals to drive sustainable growth and efficiency.

## Capability and Competency Assessments

**Optimize talent, guide development, increase organizational effectiveness**

IIL Consulting offers tailored assessments to measure and enhance organizational competencies in project, program, portfolio management, business analysis, leadership, and much more. These assessments identify skill gaps and provide data-driven insights to improve performance at both individual and organizational levels.

The process includes setting competency goals, gathering responses, and delivering detailed reports that guide targeted training and development. This approach supports strategic resource planning and continuous improvement, ultimately driving better organizational performance. Similarly, we also provide maturity and knowledge assessments in many different areas.

## Change Management

### **Embrace change as an opportunity for growth and innovation in a VUCA world**

IIL Consulting provides comprehensive change management solutions to help organizations navigate complex transitions. Our approach includes strategic planning, communication, and execution to ensure smooth transformations in structures, processes, and cultures.

By assessing change readiness and developing tailored strategies, IIL Consulting supports organizations in managing resistance and fostering stakeholder buy-in, ultimately minimizing disruptions and enhancing organizational resilience and productivity.

## Coaching and Mentoring

### **Mentoring and coaching services enhance leadership, decision-making, and strategic skills**

IIL Consulting offers coaching and mentoring services designed to enhance leadership capabilities and strategic decision-making. Their mentoring programs pair experienced professionals with mentees to provide guidance in project management and leadership.

Coaching services focus on developing skills such as communication, strategic thinking, and conflict resolution through personalized sessions and workshops. These programs aim to boost individual and team performance, leading to long-term personal and professional growth.

## Enterprise and Business Agility

### **Enhancing competitiveness through rapid adaptation to market changes**

IIL Consulting's Enterprise and Business Agility service helps organizations enhance adaptability and responsiveness to market changes. By assessing current practices against Agile principles, they identify areas for improvement in decision-making, innovation, and customer responsiveness.

The approach fosters an agile culture across all organizational levels, leading to streamlined operations, cost savings, and continuous innovation. This transformation improves customer satisfaction and positions the organization for sustainable growth in a dynamic market environment.

## PMO Implementation and Improvement

### PMOs of the future are Value Delivery Offices

IIL Consulting assists organizations in establishing or improving their Project Management Offices (PMOs) to maximize value delivery. Their services include analyzing current environments, designing tailored PMO structures, and implementing strategic roadmaps.

The approach focuses on aligning projects with organizational objectives, enhancing efficiency through consistent methodologies, and ensuring successful stakeholder engagement. By supporting ongoing growth with maturity models and change management strategies, IIL helps organizations achieve improved project performance and resource optimization.

## Project, Program, and Portfolio Management

### Performance Improvement

**The project economy is here to stay – make sure your portfolio is ready to seize the opportunity**

IIL Consulting enhances project, program, and portfolio management performance by aligning these with organizational strategy. Their approach involves assessing current practices, identifying capability gaps, and developing tailored improvement plans that include training and coaching.

The result is improved project execution, better resource prioritization, and long-term benefits like increased efficiency, competitive advantage, and successful strategy implementation. This comprehensive method helps organizations achieve both short-term gains and sustainable growth.

## Strategic Innovation

**Strategic innovation ensures long-term success and competitive advantage**

IIL Consulting's Strategic Innovation service helps organizations foster a culture of continuous innovation and adapt to market changes. They assess current strategies, develop innovation aspirations, and create implementation roadmaps that prioritize scaling and innovation processes.

The approach supports organizations in maintaining a competitive edge by building agility and readiness for change, resulting in enhanced creativity and rapid adaptation to shifting market conditions.
